

Healthcare cost per person: difference among municipalities

Even after being age-adjusted, Hokkaido, Chugoku/Shikoku and Kyushu areas mark high. On the other hand, Ibaraki, Nagano and Tochigi pref. have considerably lower costs.

<Healthcare cost / person (Actual, 2013) >

<Regional difference index (2013) >

<Municipalities with low regional difference index >

| | Insurer | Cost/person (yen) (Actual) | Cost/person (yen) (age-adjusted) | Regional Diff. Index |
|----|--------------------------|----------------------------|----------------------------------|----------------------|
| 1 | Kitadaitou vil. OKINAWA | 179,302 | 314,403 | 0.570 |
| 2 | Ogasawara vil. TOKYO | 168,415 | 242,270 | 0.695 |
| 3 | Taketomi town, OKINAWA | 179,503 | 254,758 | 0.705 |
| 4 | Toyooka vil. NAGANO | 226,016 | 318,950 | 0.709 |
| 5 | Okawa vil. KOCHI | 282,415 | 394,453 | 0.716 |
| 6 | Shimokitayama vil. NARA | 259,004 | 358,548 | 0.722 |
| 7 | Mikurajima vil. TOKYO | 185,976 | 255,510 | 0.728 |
| 8 | Otari vil. NAGANO | 234,436 | 315,820 | 0.742 |
| 9 | Zamami vil. OKINAWA | 175,379 | 234,969 | 0.746 |

| 38 | Ohizumi town, GUNMA | 239,410 | 288,842 | 0.829 |
| 39 | Kawakami vil. NAGANO | 186,016 | 223,876 | 0.831 |
| 40 | Nogi town, TOCHIGI | 273,264 | 328,790 | 0.831 |

(Remark) Created based on MHLW "Analysis on regional difference of healthcare cost"

* Regional difference index is a relative figure of healthcare cost per person in a region with adjustment considering its age-structure, setting a national average index at 1.

Regional difference index = healthcare cost per person in a region/healthcare cost per person assuming that the region's healthcare cost per person by age group is same as the national average
