	Simple total amount of expenditures of prefectures and government-designated cities. Initial budgets of local authorities are compiled with those preparing skeleton budgets or interim budgets being excluded.		Simple total amount of expenditures of prefectures and government-designated cities. Initial budgets of local authorities are compiled with those preparing skeleton budgets or interim budgets being excluded.		Simple total amount of expenditures of prefectures, all cities and special wards. Initial budgets of local authorities are compiled with those preparing skeleton budgets or interim budgets being excluded.	

(Notes)

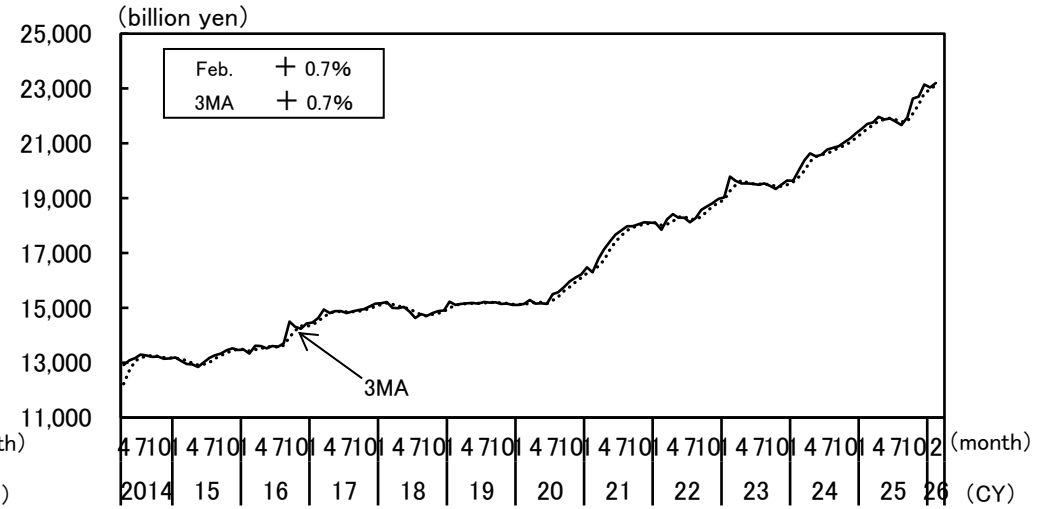

1. Based on the materials prepared by the Ministry of Finance and the Ministry of Internal Affairs and Communications, surveys by Jiji Press and surveys by “Nikkei Glocal”.
 2. (1):In fiscal year 2023, the figure in [] is before reclassification due to the transfer of the water supply business to the Ministry of Land, Infrastructure, Transport and Tourism.
 3. (2):Of the Ministry of Internal Affairs and Communications, the subsidized and non-consolidated project costs in fiscal year 2024 are calculated excluding Ishikawa Prefecture, where the budget scale was significantly expanded in response to the Noto Peninsula earthquake.
- (2):Nikkei Glocal’s general construction project cost, subsidized project cost, and non-consolidated project cost are calculated excluding municipalities that did not respond.

8. Corporate profits-Firms' judgments

Corporate profits, while affected by the U.S. trade policies, show movements of improvement.

Firms' judgment on current business conditions has been almost flat. However, their judgement on future business conditions is slightly more cautious. Therefore, attention should be given to the effects of the situation in the Middle East.

Note1: The total number of employed persons by prefecture (model estimate) is used as the national value to calculate the national share of employed persons.

Note2: The rankings of main agriculture and livestock products are based on different years depending on the item. Fishery output is the total value of Marine Fishing and Marine Aquaculture.
